What skills do you need to make a moving picture?

Inuit Art will often use animals to explore different topics. This is a famous print by Kenojuak Ashevak and is on a Canadian stamp!

What other animals do you think are portrayed?

Relief printing is when you carve into a printing block that you then use to press onto paper and make a print.

A print is an impression made by any method involving transfer from one surface to another.

Sliders

Wheels

Levers

We can use mechanisms such as levers to create different moving cards and stories.

How do you think we can use these mechanisms with our prints?

Simple mechanisms move...

- in a straight line
- in a straight line, backwards and forwards
- round and round
- in a curve

Our Artist

Kenojuak Ashevak is a Canadian Inuit artist who uses drawing and printing.
