### Toy Facts

#### How long have toys been around?

Toys have existed for thousands of years. People used things like stones and string to make them.

#### What were Victorian toys made of?

Victorian toys were made of wood, paper, and metal.

#### What toys did Victorian children play with?

Rich children had trains, rocking horses, tea sets, and dolls. Poor children made toys like peg dolls, wooden boats, and stuffed rags.

#### What are modern toys made of?

Most toys today are made of plastic because it is safe and easy to use.

#### How are modern toys different?

Many toys today use electricity. Computers and video games were invented in the 1900s.
